

How to Play!

(Quick and Snappy version)

GOAL: Guess the Secret Word!

Choose New Game.

Choose Single Player or Two Player.

SINGLE: Choose level of difficulty.

TWO PLAYER: Choose an opponent (Invite a Friend, play with a Stranger, play against BobBot).
Enter a 5-letter Secret Word (no REPEATING letters (e.g. TRIAL).

ALL: Drag letters from the Alphabet to the hexagonal tiles at the top to form a 5-letter word.

You'll get a number indicating how many letters in your guess are in the Secret Word.

NOTE: Though there are no duplicate letters in the Secret Word,
guesses **can have** duplicate letters (e.g. ARRAS).

Use the **Alphabet Tools** to keep track of which letters are in or not in the Secret Word:

One press turns a letter **GREEN**. A second press turns it **RED**.

Use logic and intuition to make deductions until you guess the Secret Word!

For more detailed instructions, see the [My Word! Tutorial](#).
